

THE WORLD'S TOUGHEST SHREDDERS®

You can't cut corners when it comes to data protection. That's why you need a tough, reliable shredder to get the job done. Our range of desk-side, office and automatic shredders ensures your documents are securely destroyed. Fellowes shredders offer jam proof, quiet and fast performance to help you be more productive.

It's essential to choose a shredder that's appropriate for the number of users, with the security level and features required to get the best possible shredding experience. The guide below will help the user get the best shredder for their needs:

WHAT KIND OF SHREDDER ARE YOU LOOKING FOR?

I am looking for a stylish design, maximum security and unmatched productivity.

I want to save time with an automatic shredder that allows me to drop in a stack of paper.

I need an easy-to-operate shredder that delivers trouble-free performance.

I want a shredder that offers great performance for the best price.

I need a safe, reliable and compact shredder for my home/small office.

I need a shredder for highly classified shredding - e.g. for military, government and intelligence services.

A strip cut shredder is ok, but it is recommended to shred with at least a cross cut shredder (DIN P-3 or P-4), which will shred each A4 sheet of paper into as many as 410 pieces. The images give examples of the levels of protection available, from the most basic strip-cut to the dust-like particles of the high-security shredders. DIN levels P-3 to P-5 should be suitable for the majority of users.

0.8 x 5mm - approximately 15,000 particles per A4 sheet	CLASSIFIED DIN LEVEL P-7	For strictly confidential documents requiring security precautions of the highest level
0.8 x 12mm - approximately 6,000 particles per A4 sheet	CLASSIFIED DIN LEVEL P-6	For high level security requirements e.g. government
2 x 15mm - approximately 2000 particles per A4 sheet	MICRO-CUT DIN LEVEL P-5	For highly confidential documents. Virtually impossible to assemble and read
4 x 12mm - approximately 1200 particles per A4 sheet	MINI-CUT DIN LEVEL P-4	For highly confidential documents. Virtually impossible to assemble and read
4 x 38mm - approximately 410 particles per A4 sheet	CROSS-CUT DIN LEVEL P-4	For confidential documents. Difficult to assemble and read
4 x 50mm - approximately 312 particles per A4 sheet	CROSS-CUT DIN LEVEL P-3	For confidential documents. Difficult to assemble and read
5.8mm - approximately 36 strips per A4 sheet	STRIP-CUT DIN LEVELS P-1 & P-2	Offers basic document security

* The above mentioned security levels are based on DIN 66399 and only refer to paper destruction

AutoMax / Auto Feed

AutoMax™ shredders offer a truly walk-away shredding experience, automatically shredding stacks of paper at the touch of a button. They offer the convenience of allowing the user to continue working whilst shredding is in progress.

HOW DO YOU SHRED?

You prefer to shred when you need to rather than letting documents accumulate to be shredded in a single session	You accumulate large volumes of paper and need to get it shredded in one go. You need to get on with your work whilst it is in progress
